

About 501c Services

Who We Are

501(c) Services is a 100 percent employee-owned company. In 1982, 501(c) Services established the first unemployment insurance trust in the country to provide a safe way for 501(c)(3) nonprofits to legally stop paying state unemployment insurance taxes.

501(c) Services helps 501(c)(3) nonprofits legally pay only for their own unemployment claims costs. We operate, with member oversight, two of the nation's most successful unemployment insurance trusts; the [Boy Scouts of America Unemployment Plan](#) and [501\(c\) Agencies Trust](#).

We also offer a wide-range of programs including our:

- Nonprofit HR Hotline
- 501(c) Agencies Trust Group Retro Plan for Washington nonprofits
- Ulnsure – a first-of-kind admitted unemployment insurance product for 501(c)(3) nonprofits

Our Partners

Beginning in 1982 with a dozen 501(c)(3) nonprofits, 501(c) Services began providing unemployment insurance tax alternatives to the nonprofit sector.

Since that time, we have grown to serving a network of more than 1,500 organizations nationwide. We work closely with both large national organizations such as Boys and Girls Clubs, Y-USA, Feeding America and United Cerebral Palsy as well as smaller stand-alone organizations.

We also partner with dozens of national organizations, such as 501 Commons, National Human Services Assembly and the Nonprofit Risk Management Center, to provide their member nonprofits with additional cost saving and risk management strategies.
